A MESSAGE FROM HASSAN OMAR HASSAN

# A county government that works

Mombasa is Kenya's gateway to the world. Yet too many of us still queue for water, walk past heaps of rubbish and wait months for a permit or a payment that should take days.

This manifesto is not a wish list. It is a set of promises a careful, honest county government can deliver in five years.

**The truth about county finances**
In my first 100 days, including every debt we inherit.

**Everything in the open**
What we spend, what we buy and what we build, published.

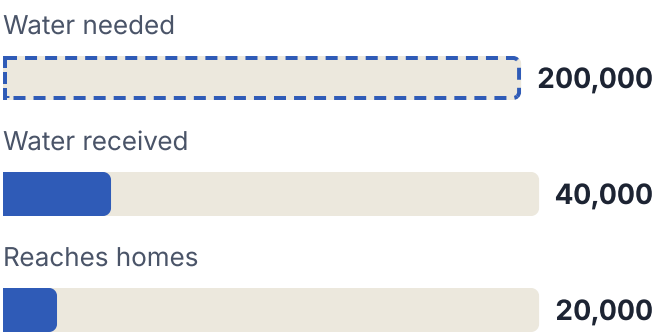

**Honest about delays**
If we fall behind, you hear it from me first, with a plan to fix it.

**Hon. Hassan Omar Hassan**
